

# SOLUTIONS

Sealers for Stone & Tile

## Easi-seal Penetrating Sealer

Easi-Seal Penetrating Sealer is a non-flammable, water based solution which provides an invisible protective barrier for porous tiles and grout. Because EASI-SEAL breathes, it can be applied 24 hours after laying of tiles or grout, making it an excellent grout sealer or pre-grouting sealer on porous tiles.

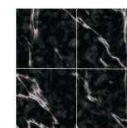

### Features:

- Suitable for internal and external use.
- Economical one coat application.
- Non-flammable, odourless solution.
- Invisible finish which maintains a natural look.
- Allows grout or tiles to "breathe", which means sealing is possible without lengthy delays.
- Provides protection against water-borne contaminants.
- Resists cement and grout stains, making it an excellent pre-grouting sealer.
- Makes surfaces easier to clean and maintain.

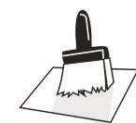

### Suitable for:

Grout joints  
Terra cotta  
Sandstone  
Concrete  
Clay + concrete pavers

### Coverage:

8-12 sq. metres per litre  
(1 coat) depending on  
porosity of the surface.

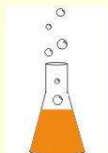

### Always Test:

Because every surface is different, we recommend that a small test patch is done to ensure the desired result is achieved.

### Technical Specs:

colour: clear  
weight: 1kg/lt  
solvent: water  
pH: 13pH  
D.G. Class: 8  
UN 1814

### Containers:

1lt  
5lt  
20lt
