Architectural & Commercial Trims

Perfect finish, every time.

robertsdesigns.com.au

For the professional. TILING TOOLS AND ACCESSORIES.

Our comprehensive range will make your job easy, with everything you need to achieve the perfect finish including silicone, trims, tools and clean up systems, sealers, spacers and more.

Roberts Designs is your specialist professional Tile Trim supplier. Our products include – Balcony, Diminishing, Listello, PVC, Round Edge and Square Edge.

Roberts Designs Trim Product Range

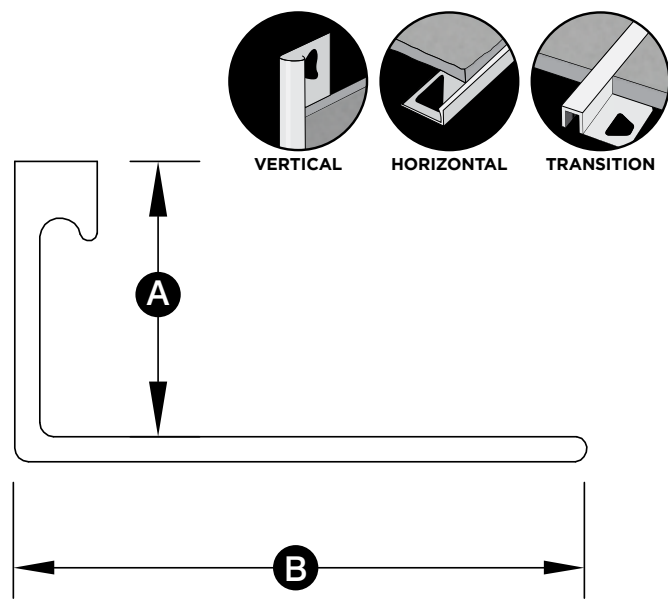

L-Shape Trim A decorative slimline trim to create an elegant finish. Can be used with all tiles and in most applications. Features a large colour range, custom colours are also available upon request.	2	Expansion Trim Installed in applications where movement joints are required. Meets Australian standards.	7
Square Edge & Square Edge Corners Offer a decorative feature trim that can be used in external corner applications to give a slick finish.	3	Cove Trim Commercial wet areas. Conforms with the Australian standard for hygiene. Custom colours available upon request. Can also be used in internal corner wall applications.	8
Round Edge & PVC Trim Round Edge offers a classic decorative trim that softens external corners in vertical and horizontal applications. PVC is an economical alternative to aluminium round edge trim, available in a range of retro colours.	4	L-Shape Stainless Steel Decorative slimline trim made of 304 grade stainless steel construction for use in commercial/residential outdoor and coastal applications. Also available in Marine grade 316 for extra protection.	9
Retro Fit & Listello Trim Retro Fit is ideal for covering tile edges or trouble spots in horizontal and vertical applications. Listello is a cost effective substitute for expensive Listello tile borders. Creates a stylish and professional finish. Can be used on horizontal or vertical.	5	Square Edge Stainless Steel Decorative feature trim made of 304 grade stainless steel construction for use in commercial/residential outdoor and coastal applications.	9
Diminishing Trim Use in both commercial and residential applications, designed to protect the leading edge of tiles creating a smooth transition between surfaces. Custom colours are available upon request.	6	Stair Trim Our range is suitable for residential and light commercial applications to heavy commercial indoor and outdoor use. All complying with Australian standard 4586.	10
		Balcony Trim Designed to divert water away from balcony façades eliminating unsightly water marks. Internal and external corners also available.	12

Did you know?
Temperature and mixing ratios of water in adhesives and grout can create extremely caustic conditions. This can be up to 30 times more alkaline than a hospital grade cleaner! Wetter mixtures take longer to cure especially in cooler conditions. This extra time and exposure can have a corrosive effect on anodised trims during installation. For best practice consult tech specs of the manufacturer.

Stainless Steel L-shaped | Interior/Exterior

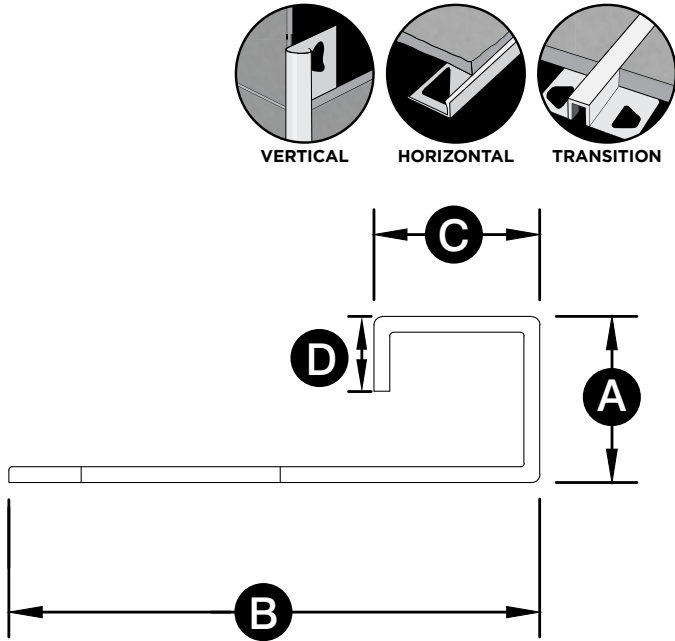

Ideal for:
Decorative slimline trim made of 304 grade stainless steel construction for use in commercial/residential outdoor and coastal applications. Also available in Marine grade 316 for extra protection.
