

INSTRUCTIONS FOR USE

WE RECOMMEND A 3 GLOVE PROCESS!

MIXING PRODUCT

- 1 Slip your first Bucket Glove into the bucket and mix up your brew.
- 2 When you've used up your first mix, simply pull out the Bucket Glove and set aside until the mix is completely dry.
- 3 Continue working by grabbing your next Bucket Glove and repeating steps 1 and 2.

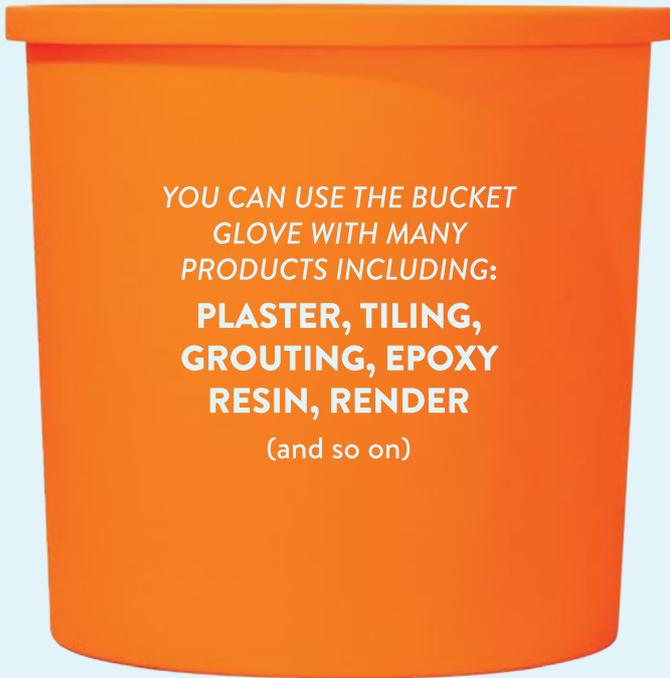

CLEANING UP

- 1 After a few hours, or the next morning, your mixes will be totally dry.
- 2 Just pick up each glove, give them a good shake and rub for a few seconds.
- 3 Then just pour out the dry remains and wipe inside the glove with a damp sponge. Job done.

USING **3 OR MORE BUCKET GLOVES** TOGETHER, YOU'LL **NEVER HAVE TO SCRATCH OUT A BUCKET EVER AGAIN.**

AN AVERAGE TRADIE WILL SAVE **30 LITRES OF WATER** AND **30 MINUTES OF HARD WORK EVERY DAY!**

THAT'S **15 DAYS (A DAMN GOOD HOLIDAY)** AND **480 BUCKETS OF WATER A YEAR!**

Super-amazing!

BUCKET GLOVE

*A strong and flexible liner,
designed in Australia.*

www.BUCKETGLOVE.com

BUCKET GLOVES AREN'T SOME SORT OF NEWFANGLED "PRODUCTIVITY SYSTEM": **BUCKET GLOVES SAVE YOU A BUCKET LOAD OF TIME, MONEY AND WATER.** WHEN A MIX SETS HARD IN YOUR BUCKET, YOU HAVE TO SPEND HEAPS OF TIME AND GALLONS OF WATER EVERYDAY, SCRATCHING AND CLEANING IT OUT. PROBABLY A 9 OUT OF 10 ON THE THIS SUCKS SCALE... **WITH BUCKET GLOVES YOU LET THE MIX DRY! THEN JUST SHAKE EACH GLOVE FOR COUPLE OF SECONDS AND POUR OUT THE DRY, BROKEN UP MIX.** YEP, EASILY AN 8 OUT OF 10 ON THE **THIS IS AWESOME** SCALE AT LEAST.

Love the glove!
